Experience

Frontend Developer, Happie (2017-Present)
Operate as part of a tightly knit development team using a modern frontend stack to delivery a responsive, easy to use, and easy on the eyes application. Make heavy use of API calls and ES6 functionality.

User Experience Consultant, Tallan (2016-2017)
Had a hand in everything front-end from UX wireframing to final implementation. Picked up new technologies quickly based on client needs in an Agile work environment. Worked on a number of projects including public websites, mobile apps, and enterprise tools.

Director of Adventure Ed., Camp Equinunk (2015)
Managed a team of twelve adventure education specialists, providing guidance and troubleshooting issues as they occured. Created weekly and daily schedules, work orders, and performed rigorous equipment safety checks with no room for error.

User Experience Analyst, Sodexo USA (2014)
Identified and resolved productivity-hindering issues in order tracking software. Performed surverys and usabilty tests to ensure the chosen solution was ideal for deployment.
